Title:	EDUCATED NK T CELLS AND THEIR USES IN THE TREATMENT OF IMMUNE-RELATED DISORDERS	)	

**PETITION TO ACCEPT UNINTENTIONALLY DELAYED PRIORITY CLAIM**  
**UNDER 35 U.S.C. 120**

Applicants of the above-identified patent application hereby petition the U.S. Patent and Trademark Office to accept the priority designation as provided on the first page of the specification, and amended herewith to add the patent number of the priority application, which was not known at the time of filing.

The entire delay between the date the claim was due under 37 C.F.R. 1.78(a)(2)(ii) and the filing of this Petition was unintentional. Although the reference to the priority was provided on the first page of the specification at the time of filing, Applicants did not realize that the Patent Office did not recognize the information concerning the benefit claim by not including the benefit claim on the first filing receipt.

In light of the above discussion, Applicants request recognition of the priority claim as amended herewith, providing a priority of this application to U.S. Patent Application No. 10/451,811, filed June 25, 2003, which was a National Stage under 35 U.S.C. 371 of International Application No. PCT/IL01/01197.

Respectfully submitted,

Elie Gendloff
